Patient Name: DOB: Today's Date

FILL THIS OUT HOW YOU WOULD FEEL IF YOU DID NOT USE MARIJUANA

GAD-7

Over the last 2 weeks, how often have you been bothered by the following problems?	Not at all	Several days	More than half the days	Nearly every day
1. Feeling nervous, anxious or on edge	0	1	2	3
2. Not being able to stop or control worrying	0	1	2	3
3. Worrying too much about different things	0	1	2	3
4. Trouble relaxing	0	1	2	3
5. Being so restless that it is hard to sit still	0	1	2	3
6. Becoming easily annoyed or irritable	0	1	2	3
7. Feeling afraid as if something awful might happen	0	1	2	3

Total Score _____ = **Add Columns** _____ + _____ +

If you checked off any problems, how difficult have these problems made it for you to do your work, take care of things at home, or get along with other people?

Not difficult at all	Somewhat difficult	Very difficult	Extremely difficult
○	○	○	○

Scoring: The total score for the 7 items can range from 0-21. Scores of 5, 10 & 15 are the cut-offs for mild, moderate and severe anxiety.

Goodman and Snyder suggest that during the subjective examination of a patient, one may want to ask specific questions regarding anxiety/depression.[5]

- Have you been under a lot of stress lately?
- Are you having some trouble coping with life in general and/or life's tensions?
- Do you feel exhausted or overwhelmed mentally or physically?
- Does your mind go blank or do you have trouble concentrating?
- Do you have trouble sleeping at night (difficulty getting to sleep, staying asleep, restless sleep, feel exhausted upon awakening)?
- Do you have trouble focusing during the day?
- Do you worry about finances, work, or life in general?
- Do you get any enjoyment in life?
- Do you feel keyed up or restless?
- Irritable and jumpy?
- On edge most of the time?
- Do you have a general sense of dread or unknown fears?
- Do you have any of these symptoms: a racing heart, dizziness, tingling and tingling, muscle or joint pains?

The authors also list questions specific to Asian patient/clients: [5]

- Do you feel you are having any imbalance of yin and yang?
- Is your chi (internal energy) low?
- Do you believe it is your destiny to have this condition or your destiny not to have this condition? (fatalism versus well-being approach to illness.)

Associated Comorbidities

Comorbidities play an essential role in describing and understanding general anxiety disorders. The conditions of GAD may not be recognized as an emotional problem until the secondary disorder/ co-morbidity develops. Hoyer et al. state that epidemiological studies have found high rates of co-morbidity in GAD.[15]

Generalized anxiety disorder is most often associated with other disorders that can include other anxiety disorders, depression, and substance abuse. GAD can also lead to or worsen pre-existing conditions such as insomnia, digestive or bowel problems, headaches, and bruxism (teeth grinding).[2][9]

Other associated anxiety disorders can include panic disorder, phobias, obsessive-compulsive disorder (OCD), post-traumatic stress disorder (PTSD), or adjustment disorder with anxious mood (those with an organic illness). [1] [5]

Integrating Medical Marijuana & Primary Care.

TELEMEDICINE CONSENT FORM

Telemedicine provides access for therapeutic services using interactive video conferencing tools, such as Skype, in which the doctor and the patient are not at the same location. Telemedicine will allow the patient to receive treatment without the need to visit the office and travel long distance. Potential risks include, but may not be limited to: information transmitted may not be sufficient (poor resolution of video); delays in any evaluations and treatment due to deficiencies or failures of the equipment; security protocols can fail, causing a breach of privacy; and a lack of access to all the information available in a face to face visit may result in errors in judgment. Alternative to telemedicine include traditional face to face sessions.

I understand that using marijuana may cause short-term side effects like elevated mood, increased appetite, red eyes, dry mouth, and paranoia. More serious problems like pneumothorax are rare but have been documented. There may be a decreased ability to operate machinery and drive a vehicle. For this reason, it is advised not to drive or use heavy machinery while under the influence of marijuana. These short-term side-effects decrease with use and familiarity to its effects.

Your Rights:

1) I understand that the laws that protect the privacy and confidentiality of medical information also apply to telemedicine.

2) I understand that Skype is known to incorporate network and software security protocols to protect the confidentiality of information and audio/visual data but, like email, may not be HIPAA compliant. These protocols include measures to safeguard the data and to aid in protecting against intentional or unintentional corruption.

3) I have the right to withdraw my consent to the use of telemedicine during the course of my care at any time.

4) I understand that Nature's Way Medicine has the right to withhold or withdraw consent for the use of telemedicine during the course of my care at any time.

5) I understand that all rules and regulations which apply to the practice in the Commonwealth of Pennsylvania also apply to telemedicine.

Your Responsibilities:

1) I will not record any telemedicine sessions, and I understand that Nature's Way Medicine will not record telemedicine sessions.

2) I will inform my doctor that my environment is secure and confidential. Likewise, my doctor will inform me that the environment in their office is secure and confidential before the session begins.

3) I understand that I **MUST** be a resident of Pennsylvania to be eligible for telemedicine services from Nature's Way Medicine.

4) I understand that my Intake will not be done by telemedicine except in special circumstances under which I will be required to verify my identity to Nature's Way Medicine staff's satisfaction before the evaluation.

Your signature below indicates that you have read and understand the information provided above regarding teletherapy, and that you authorize Nature's Way Medicine and doctors to use telemedicine in the course of diagnosis and treatment.
